

OUR MODEL FOR SUPPORTING SUSTAINABLE, VITAL, EXCELLENT ORGANIZATIONS THAT ALLEVIATE THE CONDITIONS OF POVERTY

Specialty Family Foundation believes that through investment in systemic change, institutional capacity, and individual empowerment, we can provide a pathway out of poverty for disadvantaged youth and vulnerable adults.

WE BELIEVE THAT ORGANIZATIONS SERVING CHILDREN, FAMILIES, AND INDIVIDUALS IN UNDERSERVED COMMUNITIES CAN GROW AND THRIVE:

IF an organization cultivates, and recruits **a visionary leadership team,**
THEN that leadership team is capable of planning and executing an exciting and ambitious vision that is:

- Innovative and able to measure demonstrable impact and outcomes
- Collaborative, partnering with as many external experts and communities as necessary

And **IF** an organization realizes its vision of impact effectively, builds its institutional capacity with the right leadership and talent, embraces risks, and thinks boldly,
THEN its impact will grow:

And **IF** an organization can demonstrate the efficacy of their impact,
THEN their resources will grow; which can and must be used to re-invest in its exciting vision.

THE RESULT

A vibrant, impactful, sustainable, poverty-alleviating organization thriving in Los Angeles with programs that assist individuals in breaking the poverty cycle.

THEORY OF CHANGE
